

Panasonic

KV-SS855D

HIGH-SPEED SCANNER

- High-speed production scanning
- 95 ppm / 187 ipm
- 256-grayscale capability

Panasonic KV-SS855D High Speed Scanners

THE PERFECT SOLUTION FOR HANDLING LARGE VOLUMES.

The KV-SS855D is the latest addition to Panasonic's family of world-class production scanner products. It provides you with high-end production scanning with the quality and speed you would expect from a much more expensive scanner. The KV-SS855D employs new roller material that offers quieter paper intake and improved paper handling. Scanning at an incredible rated speed of 85 ppm, a 1000 page automatic document feeder, and capable of handling paper from onionskin to cardstock – in mixed batches – will save you time and money. If your original documents are an irregular size or less than perfect, the KV-SS855D can handle it – business cards, invoices, checks, even wrinkled documents. The KV-SS855D is the perfect solution for virtually any large volume scanning situation.

KV-SS855D Specifications

Scanning Face	Duplex Scanning (front and back sides)
Scanning Method	Front: CCD, Back: CCD
Scanning Speed	85 pages/minute at 200 dpi (simplex) 160 ipm at 200 dpi (duplex) Landscape: 95 ppm at 200 dpi (simplex) 187 ipm at 200 dpi (duplex)
Scanning Resolution	100 dpi to 400 dpi
Auto Document Feeder	1,000 pages
Image Enhancement Technology	Brightness / Contrast, Grayscale, White Level Follow, Subwindows, Halftone Processing, Image Emphasis, Monochrome Reversing, Auto Threshold, Auto Separation, Patch Code, Bar Code, Long Paper, Double Feed Detection
